Explanation:

The standard entry times for Individual Events are identical to the Standard Entry Times of Fukuoka 2023.

- The "A" standards for the Doha 2024 were created by using the faster of two times from:
 - The Budapest 2022 "A" qualifying time standard; and
 - The 16th place time from the Budapest 2022
- All "B" time standards were derived by multiplying the "A" time standard by 3.5%.

The standard entry times for Relay Events are established based on the results from the World Championships Gwangju 2019, Olympic Games Tokyo 2020, and the World Championships Budapest 2022.

Table 2 – World Aquatics Relay Qualification Pathway

As the World Aquatics Championships – Doha 2024 is one of two qualifying events for relays for the Olympic Games Paris 2024, World Aquatics has decided to expand the methods by which Member Federations can qualify for Doha. Federations can either qualify relays via the current method of which forming a team of swimmers who have qualified for an individual event, and additionally, time standards for male and female relays have been established for the following relay events:

- 4x100m Freestyle,
- 4x200m Freestyle, and
- 4x100m Medley

With these new time standards, Member Federations are entitled to enter their qualified relay event in the World Aquatics Championships - Doha 2024 and form a relay team irrespective of their athletes' qualification for an individual event. Member Federations can qualify for the above-mentioned relays via one of three methods:

- 1) The current method of qualifying relays for World Championships (Competition Regulations (I. Rules Applicable to all Aquatics Disciplines, 6.2.3);

At the World Aquatics Championships, each National Federation may enter only one (1) team in each relay. The members of such entered team(s) shall comprise:

- Any swimmers entered in individual events even if they have not achieved a "A" or "B" Standard Entry Time for the corresponding stroke and distance of the relay in which they are entered;
- Additional swimmers as relay-only competitors, provided that they have achieved the "B" Standard Entry Time for the corresponding stroke and distance of the relay in which they are entered.

- 2) By recording a true relay time that is equal to or faster than the listed relay qualifying time standards; and/or
- 3) By calculating an "add-up" time from four different swimmers from the same federation that is equal to or faster than the listed relay qualifying time standard(s) achieved at any of the qualifying events for World Championships Doha 2024.

Each Member Federation which qualifies for the relay events via any of the three methods above may have additional swimmers. The following quota shall apply. Please note that the mixed relays do not count toward the total number of the relays applicable to this quota:

- | | |
|---------------------|---------------------------------|
| • One (1) Relay: | two (2) additional swimmers |
| • Two (2) Relays: | four (4) additional swimmers |
| • Three (3) Relays: | six (6) additional swimmers |
| • Four (4) Relays: | eight (8) additional swimmers |
| • Five (5) Relays: | ten (10) additional swimmers |
| • Six (6) Relays: | twelve (12) additional swimmers |
