SUCCESS OF YOUR CONTRIBUTIONS

Your generous contributions have played a vital role in strengthening the ecosystem that supports our athletes and programmes across Singapore Aquatics. Over the past year, your support has enabled several key initiatives that directly contributed to athlete development and international success.

COMPETITION OPPORTUNITIES

With the closure of Toa Payoh Swimming Complex and Queenstown Swimming Complex for redevelopment, all national divers were relocated to the OCBC Aquatic Centre – currently Singapore's only diving facility. To ensure continued development, additional overseas training camps and competitions became critical for our athletes to gain exposure and train alongside the best

Impact of your support:

- Ainslee Kwang (14) - Became the first Singaporean diver to qualify for the semi-finals at the World Aquatics Championships (2025)
- Avvir Tham - Won the SEA Games men's springboard gold, Singapore's first since 1965, ending a 60-year wait

Your support ensured our divers continued to progress despite infrastructure challenges.

TRAINING ENVIRONMENT & PERFORMANCE TECHNOLOGY

Enhancing the daily training environment and incorporating video feedback and performance analysis tools are critical for skill refinement and strategic development. Your support enables our athletes to train smarter and remain competitive internationally.

Impact of your support:

- Julia Yeo (14) - Broke Tao Li's national record (2:17.55) set in 2009 and won SEA Games gold
- Letitia Sim - Dominated the SEA Games with five gold medals
- Gan Ching Hwee - Continued to break national records and strengthen Singapore's distance swimming programme

Your contributions help provide the marginal gains that separate finalists from champions.

Education & Career Support

Your support enabled our national water polo athletes to commit fully to high-performance training while balancing education and career pathways. Some working athletes made the difficult decision to step away from their jobs to train full-time.

Impact of your support:

- Men's Water Polo Team - Retained SEA Games gold with a young squad of 11 debutants
- Women's Water Polo Team - Retained SEA Games silver

Your support allowed our athletes to train twice daily, remain competitive against Asia's top teams and maintain Singapore's regional dominance.

COACH DEVELOPMENT & INTERNATIONAL EXPERTISE

High-performance sport requires world-class coaching. With donor support, Singapore Aquatics has been able to engage international expertise to strengthen our coaching ecosystem.

Impact of your support:

- Appointment of world-class artistic swimming coach Anastasia Goutseva, bringing international expertise and high-performance standards
- Increased overseas exposure through World Aquatics competitions and World Cup events
- Artistic Swimming Team - Won SEA Games Team Silver and Duet Gold (2025) after the sport's return to the Games since 2017

Your support ensures our athletes benefit not only from talent, but also from world-class guidance.

Every contribution helps build a stronger aquatics ecosystem – from grassroots participation to elite performance. Your support empowers athletes, strengthens programmes and inspires the next generation of Singaporeans to pursue excellence through sport.
